

Abstract

The present invention relates to compounds of the formula (I)

- 5 wherein R^1 , R^2 , R^3 , R^4 , R^5 , R^7 , and L are as described in the specification. The present invention also relates to pharmaceutical compositions that include compounds of the formula (I) and a pharmaceutically acceptable carrier. Moreover, the present invention relates to methods of using the above-described compounds and compositions to treat and prevent diseases and conditions including those that
- 10 may be treated or prevented by antagonizing the CCR1 receptor.
